

The District has adopted the program *Peachjar* as their communication tool with parents. *Peachjar* provides a highly effective method of electronic flyer distribution. Paper flyers that were carried home by your child will be emailed directly to you. Additionally, parents can view all school-approved eflyers by clicking the *Peachjar* button on your school's website. *Peachjar* saves schools tons of time and paper. In addition, the service reduces copy costs and removes a significant burden from teachers, office staff, and volunteers. If you have not already established an account with *Peachjar*, please log in to Peachjar.com and register for an account. Keep informed about the activities at your school and within the District.
